

ENVIRONMENTAL POLICY

Foynes Engineering Limited will conduct its operations in an environmentally responsible manner that is protective to our employees, all people offers by our operation & of the communities in which we operate. Our environment management system assures compliance with all applicable environmental laws & regulations.

We are committed to the continual improvement of our environment programs & to pollution prevention. Foynes Engineering Limited has set forth the following objectives as part of our proactive environment program that:

- Continue to improve our waste minimization program with a concentration on source & waste reduction, recycling & disposal of waste in an environmentally sound manner.
- Meet or exceed all environmental requirements.
- Respond immediately & appropriately to incidents that may endanger the Health & Safety of any persons, the surrounding community & the environment.
- Respond promptly to employee, contractor, client or community concerns regarding environmental issues.
- Use work / production processes that minimize environment impacts & do not use environment harmful substances.
- Make improvements by conducting self-assessments & performing audits utilizing the expertise of independent consultants.
- Contribute to the environmental awareness of our employees & all people affected by our operations.

Brendan O Connor,
Managing Director.
